3ANW4

Pressure Washer Chemicals

Designed for use in all types of pressure washers.

Description	Size	Brand	Item No.
Crankcase Oil, SAE Grade 30	16 oz.	—	1MDJ8
Deck and Fence Cleaner Concentrate	1 gal	Simple Green	3ANW4
House and Siding Cleaner Concentrate	1 gal	Simple Green	3ANW5
Concrete and Driveway Cleaner Concentrate	1 gal	Simple Green	3ANW6
Heavy-Duty Cleaner and Degreaser Concentrate	1 gal	Simple Green	3ANW7

Water Brooms

1MDK4

Rust-resistant brooms provide a wide cleaning path for fast and easy cleaning. Units hook up to pressure washer spray gun lance with a standard 1/4" quick disconnect plug.

Description	W	Max. Pressure	Item No.
3-Nozzle	12 in	4,000 psi	1MDK4
4-Nozzle	16 in	4,000 psi	1MDK5

Pressure Wash Hand-Crank Hose Reels

Hose reels are equipped with a high-pressure water swivel that handles a broad range of pressures, temperatures, and chemicals. Steel reels withstand corrosion, hold tangle-free hose, and mount on the floor, wall, bench, or in trucks. They are used with water or chemical hoses for equipment cleaning, pressure washing, and in agricultural spraying.

Hose Cap.	Overall Dim.	Seal Material	Reel Color	Brand	Item No.
Max. Operating Pressure: 3,000 psi					
100 ft (3/4 in I.D.)	13 1/2 in L x 18 in W x 17 in H	Nitrile	Black	—	1MDK1
Max. Operating Pressure: 5,000 psi					
150 ft (1 in I.D.)	32 in L x 17 1/2 in W x 20 in H	FKM	Black	Mi-T-M	3WE19
250 ft (3/4 in I.D.)	18 in L x 18 in W x 18 in H	Nitrile	Silver	—	5RCC7

Pressure Washer Pump Saver

Prolongs the life of pressure washer pumps by protecting pistons and seals from damage during storage. Prevents build up of hard water deposits and provides antifreeze protection down to -25°F. Includes applicator and threaded nozzle.

Size	Inlet	Max. Fluid Temp.	For Use With	Item No.

Pressure Washer Hoses

Bulk Hose—Used to replace worn or damaged hoses on pressure washer machines. Hoses convey pressurized jets of water that loosen and remove dirt, grime, grease, oils, and other substances from equipment and surfaces. Can be cut to the desired length, and compatible hose fittings can be added to the ends of the hoses to create custom hose assemblies.

Neptune and Simpson—Coupled hose assemblies are suitable for hot- and cold-water pressure-washing applications. Include fittings on the ends of the hose for connecting to pressure-washing equipment. Dual-braid steel wire reinforcement.

Sewer Hoses—Sewer hoses (also known as jetter hoses) with coupled hose assemblies are used with compatible sewer-cleaning equipment to clean drains, unblock sewer pipes, or prevent clogged drains. Hose is lightweight, abrasion-resistant, and slippery, and it can be pushed inside a pipe. Used

in plumbing and waste-management applications. Compatible sewer nozzles must be attached to the hoses.

Nitrile Washdown—Washdown hose assemblies have a nitrile tube. Designed to convey hot water in washdown and cleanup applications in food-processing plants, dairies, breweries, canneries, creameries, and similar industrial locations. Outside cover has Microban antimicrobial protection. Single wire braid reinforcement.

Steam Cleaner & Pressure Washer—Hose assemblies are used for replacing old or worn hoses on steam cleaner machines or combination steam cleaner/pressure washer machines. Convey pressurized jets of water or steam that loosen and remove dirt, grime, grease, oils, and other substances from surfaces and equipment. Have an EPDM tube and fittings on their ends for connecting to compatible equipment. Single wire braid reinforcement.
