Color-Coded Brushes

Promote safe food handling practices and help minimize the risk of cross-contamination between work zones using color-coded brushes.

UTILITY SCRUB

General-purpose, with a white plastic block and 1½" polyester fill.

HAND SCRUB

Ergonomic design with curved back and flared, crimped bristles to hold solutions and clean along edges and corners. Contoured plastic blocks are 2½"W. Fill is 1¾".

BENCH

Remove powder and other residues. Polyester fill is 2½".

PIPE HOOK

Circular clean-in-place brushes are ideal for cleaning curved drains, tubes, pipes, and equipment. Polyester bristles are twisted into galvanized steel wire.

WAND

Radiator-style brushes feature a long, narrow shape to clean countertops, refrigerator coils, conveyor belts, and other hard-to-reach spots. Slip-resistant, durable plastic handle will not crack or splinter.

BOTTLE AND GALLON

Wirewound brushes feature smaller diameter handles and softer bristles for cleaning containers with smaller openings.

MULTIPURPOSE VALVE AND FITTING

Medium stiff bristles provide aggressive cleaning, and rounded heads and ends protect against scratching.

Description	Brush L	Trim L	Overall L	►CHOOSE: Color*	Item No.

Color-Coded Squeegees, Floor Brushes, and Cleaning Supplies

Protect against microbial cross-contamination by assigning specific colors to each potential area of contamination.

Color-coded supplies allow certain colors for specific cleaning purposes. This system is easy to understand and prevents cross-contamination for better sanitation.

SQUEEGEES

Hygiene—1-pc. design inhibits growth of bacteria by eliminating openings for dirt to accumulate. Soft thermoplastic elastomer blade contours easily to uneven surfaces. Frame is designed to help prevent fluids from splashing over squeegee frame. 12" squeegee includes a 6½" handle.

Foam—For cleaning liquid spills from floor surfaces. Double foam rubber blades conform to most surfaces, including tile and marble. Durable plastic frames will not rust or spark.

FLOOR SCRUB BRUSHES

Dual-angle plastic block and crimped polypropylene filament hold liquid for scrubbing at high and low angles.

Threaded handle hole; order handle separately on page 1541. 1¾" trim length. Overall length: 10".

ANGLE BROOMS

Designed for extended use; ergonomic shape prevents uneven wear. 1"-dia., fiberglass handle. Sanitary, unflagged polypropylene bristles. Self-locking Flex-Tip. 12" sweep face; 5½" to 7" trim length. Overall length: 54".

FLOOR SWEEPS

Hygienic, nonabsorbent plastic block with angled synthetic bristles. Short, heavy-duty bristles up front help sweep heavier debris. Long, fine bristles in back sweep fine dust and can be used with sweeping compound. 2½" trim length. Block size: 24".

HANDLES

1"-dia. handles for use with a variety of bench and floor squeegees and brushes. Short 6½" polypropylene handles feature ACME threads and are ideal for use with bench squeegees and brushes. 60"L fiberglass handles are self-locking.
