## Food Service Brushes

**Bottle**—Short-handle brushes are used to scrub the sides and bottoms of tubes, jars, bottles, and glasses. They have a cylindrical head and a small-diameter handle to clean containers with small openings.

**Oven and Grill**—Wire bushes and metal scrapers and easily remove heavy carbon deposits, rust, and burnt-on food buildup.

Note: Equipment must be turned off prior to brush use.

**Grill Cleaning System**—Specifically designed to clean hot surfaces without clogging. No. 2NTJ7 must be used with grill pad and holder. No. 2NTJ6 cleans without scratching or lifting surface cure.

**Coffee Maker**—Compact brush cleans all coffee decanters, pots, urns, and dispensers. Semi-circular wire wound brush contours to the inside of the container.

Description	Overall L	Brand	Item No.
