Drop Cloths

Protect floors and furniture from paint drips or spills as well as construction dust during demolition. They absorb drips, spills, and trap dust. **Standard Drop** cloths are canvas or plastic sheets that cover any surface during painting or construction. Canvas cloths are washable and reusable. Plastic drop cloths are single-use items. **Slip-Resistant** allow heavy foot traffic in all types of weather. The bottom layer keeps the canvas drop cloth in place, preventing slips and falls. **Leak-Resistant** feature a middle plastic layer that stops spills from seeping through to any surface.

Carpet Protection Films

■ Clear color

Film self-adheres to carpets and rugs as temporary protection against paint spills. These rolled films are designed with a special blend of polyethylene to stand up to walking, ladder movement, and tears. They are single-use products meant to be disposed of when work is done.

Sticky-Surface Floor Mats

Sticky surface removes dirt and debris from shoes to eliminate damage to interior surfaces. When the mat is dirty, the top layer can be removed to expose a fresh surface. Adhesive backing sticks to clean, smooth floors to stay in place. Each mat has 30 numbered sheets and are packed 2 per box.

Floor Protection Mat Base—Recommended base provides a secure mounting surface for the mats in dusty conditions and enables portability to multiple locations. Nonskid backing.
