## Safety Glasses

- Meet ANSI Z87.1-2010
- 99.99% UV protection

Select models feature permanent Platinum coating on both sides of the lens to offer high resistance to scratching and aggressive chemicals and help delay fogging.

**A. Prism**—Durable nonconductive polycarbonate frame, excellent coverage, upper brow protection, comfortable straight temples, and sport-style design.

**B. Rush**—Wraparound lightweight nonconductive frame and premium optical quality. Design includes upper brow protection, nonslip temples, and adjustable nonslip bridge with silicone nosepiece.

**C. Rush+**—Ultra-sporty design with a nonslip adjustable bridge and flexible co-injected temples to customize fit. Platinum coating.

**D. Contour**—Ultra-lightweight half-frame provides panoramic view. Nonslip temple tips, rubber

nose pads, and reinforced bridge. Antistatic, stylish design, premium optics.

**E. Silium+**—Ultra-lightweight for comfort in extended wear, with a nonslip adjustable bridge and straight, highly flexible temples. Platinum coating.

**F. Baxter**—Highly wrap-around frame for total comfort. Waterproof foam and special strap attachment system offer effective protection against liquid and solid spray, and from dust. Platinum coating.

**G. Lowrider**—High-contour, close fitting design with rubber temples for a comfortable and nonslip fit. Has high-impact polarized lenses that provide true color definition while fighting harsh glare.

**H. Tracker Sealed Eyewear and RX Holder**—A rubberized eye seal keeps out dust and other fine particles, and the adjustable head strap assures a snug fit and optimal protection. Each accept a Prescription Insert Holder.
