

5H901

### High Performance Rust-Preventative Industrial Spray Paints

- V2100 system
- Dry time: 1 to 2 hr.
- Coverage: Varies by color and finish

Fast-drying enamel provides excellent corrosion protection, as well as color and gloss retention. Resist chipping, cracking, and peeling. Indoor/outdoor use.

### Aerosol Can Disposal Systems

53JT41

Quickly punctures and drains aerosol cans, reducing the cost of hazardous waste disposal by allowing the can to be recycled. Features a built-in cycle counter. Replacement carbon filters with coalescing element. Cellulose shell and carbon media is biodegradable and decomposes naturally. 53JT42 and 53JT44 include check ball, mounting base and top.

### High Performance Zinc-Rich Galvanizing Compounds

- Dry time: 1 to 2 hr.
- Coverage: 14 sq. ft. for 5W909; 24 sq. ft. for 5W180

Contains up to 93% pure zinc for maximum corrosion protection. Moderate to severe environments.

5W180

### High-Temperature Paints

- Dry time: 1 to 2 hr.
  - Coverage: 14 sq. ft.
- Self-priming coatings resist temperatures up to 1000°F.

1D493

### Spray Epoxy Primer

- Dry time: 2 hr.
  - Coverage: 8 to 12 sq. ft.
- High performance protection with the convenience of a no-mess spray. Ideal for priming welds, seams, and bolts.

Beige	Flat	14.1 oz	3ZH1Y

### Rebar Epoxy Aerosol Paint

- Dry time: 15 min.
- Coverage: 8 to 9 sq. ft.

One-step, direct-to-metal paint prevents rust and metal stains in concrete. Excellent corrosion and chemical resistance. For touch-up of rebar coating on the job site.

Color	Paint and Primer Finish	Net Wt.	Item No.
Green	Gloss	12 oz	23N407

### Galvanizing Compound Spray Paint

- 1600 system
- Dry time: 1 hr.
- Coverage: Up to 22 sq. ft.

Zinc-rich coating contains a high level of zinc providing superior galvanic protection. Dries to touch within 20 minutes and can be used on surfaces that reach temperatures up to 200°F. Touch-up or repair damaged galvanized steel, vehicles, ducts, fences, bridges, tanks, trailers and production welds.
