Paint Thinners

Materials Removed	Contains	Strength	Container Type	Container Size	Brand	Item No.
Lacquer Thinners						
Solvent Base Type						
Epoxy Coating, Lacquer	2-Butoxyethanol, Acetone, Parachlorobenzotrifluoride	Regular	Can	1 gal	Sunnyside	12H845
Epoxy Coating, Lacquer	2-Butoxyethanol, Acetone, Parachlorobenzotrifluoride	Regular	Pail	5 gal	Sunnyside	499H52
Epoxy Coating, Lacquer	Acetone, Aliphatic Naphtha, Ethyl Acetate, Ethylbenzene, Methyl Alcohol, Methyl Ethyl Ketone, Toluene, Xylene	Regular	Can	1 gal	Sunnyside	5KP2
Epoxy Coating, Lacquer	Acetone, Aliphatic Naphtha, Ethyl Acetate, Ethylbenzene, Methyl Alcohol, Methyl Ethyl Ketone, Toluene, Xylene	Regular	Pail	5 gal	Sunnyside	22M494
Xylene/Toluene						
Solvent Base Type						
Adhesive	Acetone, Parachlorobenzotrifluoride	Regular	Can	1 gal	Sunnyside	12H847
Paint	Cumene, Ethylbenzene, Mixed Xylenes, Toluene	Premium	Bucket	5 gal	Rae	19N268
Paint	Toluene	Premium	Bucket	5 gal	Rae	3EHJ6
Xylol Thinners						
Solvent Base Type						
Adhesive, Anti-Rust, Epoxy, Lacquer, Oil-Based Paint, Porch and Deck Paint, Synthetic Enamel, Varnish	Ethylbenzene	—	Can	1 gal	Sunnyside	5KP4
Water Immersion Coating Thinners						
Solvent Base Type						
Epoxy Mastic, Paint	Ethylbenzene, Methyl Isobutyl Ketone, n-Butanol, Toluene, Xylene	Regular	Can	1 gal	Rust-Oleum	6H076

General Purpose 499H67

Acetone 44ZU11

Graffiti Remover 52JC16

Marine Paint Remover 39C320

Remaining Residue Clean Up 6KDX8

Sample Kits 35XU23

Paint Removers

General Purpose Paint & Coating Removers—Remove paint, finishes, and coatings while also cleaning the underlying surface.

Acetone—Removes oil stains from walls. It is used as a paint thinner for oil paints and resins and can be used to clean paint brushes, sprayers and other equipment used while painting.

Graffiti Removers—Emulsify and remove paint without extra cleanup. These removers dissolve aerosol paint, enamel, and lacquer from hard or porous surfaces.

Marine Paint Removers—Powerful water-soluble paint and anti-fouling strippers designed for marine uses. These removers can remove up to eight coats of paint in just one application on wood or fiberglass boats. They

remove varnish and urethane from fine woods, metals, and glass.

Glaze Removers—Reduce the pH of surfaces being stripped of paint to help improve adhesion of new primer and paints. These removers neutralize surfaces covered in alkaline products or mill glazes.

Remaining Residue Clean Up—Penetrate left over layers of paint and adhesive to clean surfaces prior to painting. They remove grease and other stains to ensure a smooth paint finish.

Sample Kits—Include samples of a variety of paint removers and strippers, allowing users to test a small painted area to determine which product is best suited to remove paint for each individual project and situation.
