WOMBAT PORTAPAIN

**Paint Trays & Liners**

**Paint Trays** have a reservoir that works with both brushes and rollers, and a ridged slope for removing excess paint before applying to a surface. They are often used with a disposable tray liner for easier cleanup. **Paint Tray Liners** are disposable plastic inserts that make cleanup easier. Liners are made of solvent-resistant plastic that resists cracking. The form-fitting design snugs tightly to the paint tray to extend the life of the tray for multiple uses.

**Paint Tray 39AN15**

**Paint Tray 3UW74**

**Paint Tray 34AN83**

**Paint Tray Liner 24K689**

ENCOREPlastics WOMBAT PORTAPAIN

**Paint & Coating Buckets, Pails & Cups**

**Paint Handheld Cups & Liners** are used for mixing small amounts of paints and holding paint for trim work and quick touchups. Paint cup liners are one-use disposable plastic cups that fit into regular paint cups or small pails to keep them clean. Liners are also used for quick color changes between coats.

**Paint Mixing & Measuring Paint Pails** make it easy to mix paints, pastes, and other adhesives. Pails are imprinted with both standard and metric gradations for accurate measuring. Containers are safe for use with all paints, pastes, and adhesives. Lid is sold separately and allows container to be used for storage.

**Paint Roll-Off Buckets, Liners & Lids** hold large amounts of paint at one time. **Buckets** have internal grid patterns that allow multiple users to load paint at the same time, increasing efficiency and productivity on large painting jobs. The buckets are easily carried with the ergonomic handle. Time-saving disposable **liners** make cleanup and color changes more efficient. Liners are custom-made for the paint pail and are easily removed for quick disposal. **Lids** are available for use with mix/measure containers, easing storage requirements for unused paint.
