

## Chill-Its Headwear and **Sweat/Wristbands**

**Evaporative Cooling**—PVA material activates when run under water for 1 min. Provides cooling comfort for hours. Reusable; just rewet.

Ranger Hats have a wide brim and constructed of 150 denier oxford polyester with vented mesh panels and PVA lining. Include Level 2 ANSI-compliant reflective tape with contrasting color.

Absorptive Cooling—Absorbent moisture-wicking terry fabric draws sweat away from skin.

Item

## Cooling Headwear

Keep cool on the job with reusable towels, bandannas, and sweatbands. Just soak in cold water up to 20 min. for instant cooling relief. Activate towels in just a couple minuteswear on your neck or use for wiping away dirt and sweat. Wear cooling bandannas alone or with protective hard hats. Cellulose sweatband absorbs sweat and helps keep it away from eyes and hands. Brightly colored neck protector can be worn with front or full-brim hard hats to provide shade and visibility.
