Find Respiratory Filter and Gas/Chemical Cartridge Abbreviations on page 1669.

Primair® 700 Series Powered Air-Purifying Respirator (PAPR)

Features 3-speed airflow for more comfortable use in manufacturing, pharmaceutical, and hospital lab applications. The illuminated keypad has large buttons you can operate even when wearing gloves. The battery and blower motor are integrated into an ergonomic belt that distributes the weight for a more comfortable fit. Filter locks into place with just a ¼ turn to help ensure a tight and secure connection.

Description	Includes	Mfr. Model	Item No.
PAPR System	Battery, Battery Charger, Blower, Comfort Pad, Free Starter Kit, Nylon Belt	PA701HE	449N06
Straight Breathing Tube	Breathing Tube, Loose Fit	PA031	449N07

More Headgear Choices

Personnel who already have fit-tested North® Honeywell® headgear can adapt it to a CA200 PAPR system—all it takes is a breathing tube and cartridge. This lets the wearer keep familiar gear and helps reduce the complexity of respiratory protection compliance. See page 1674 for NIOSH-approved half- and full-facepiece respirators.

MSA
The Safety Company

OptimAir® TL Powered Air-Purifying Respirators (PAPRs)

- NIOSH approved
- Facepieces meet ANSI Z87.1

Each PAPR system includes motor-blower, battery, charger, breathing hose, and decontamination belt. Feature audible and visual low-flow and low-battery alarms. To complete the PAPR system, select a hood or full-facepiece respirator and appropriate cartridge. Advantage 4000® series facepieces require Cartridge Adapter 2YRD8, sold separately.

CA200 Series Powered Air-Purifying Respirator (PAPR) Assembly Kits

- NIOSH approved

Assemblies feature a triple-alarm system with audible, vibratory, and visual alerts that warn the wearer when there are blocked or clogged filters and at 5% and 10% battery life remaining. Airflow automatically adjusts to meet OSHA and CSA cfm requirements. Each kit includes a blower, Li-ion battery, belt (standard or decon), single-unit charger, flow meter, and carrying case. Require breathing tube, headgear, and cartridges, sold separately.

Note: Personnel who already have fit-tested Honeywell® North® tight fitting facepieces can adapt it to a CA200 PAPR system—all it takes is a breathing tube and cartridge. This lets the wearer use a common facepiece and helps reduce the complexity of respiratory protection compliance. See page 1674 for NIOSH-approved tight fitting facepieces (ie. half- and full-facepiece respirators).

Description	Mfr. Model	Item No.
PAPR Assembly Kits		
Standard Belt and Backpack	CA201	16M250

Hood with Collar and Adjustable Headgear, White, Universal Size	PA131	16M256
Headcover with Adjustable Headgear, White, Size S	PA101M	1AAAN6
Bibbed Hood and Adjustable Length, White, Universal Size	PA111	1AAAN8
Coated Bibbed Hood and Adjustable Length, White, Universal Size	PA121	1AAAN9

Bullard

EVA Series Powered Air-Purifying Respirators (PAPRs)

- NIOSH approved

Active Flow Technology automatically responds to the user's need for constant, steady airflow. Systems feature an easy-to-read battery status display and alarms for low battery power and low airflow. Easy-to-install combination filter. PAPR Assemblies include battery, belt, blower, and charger. To complete the PAPR system, select a filter cartridge, hood or full-facepiece respirator, and breathing tube.
