Pureflo® Powered Air-Purifying Respirator (PAPR) Systems

- NIOSH approved
- Meet ANSI Z89.1 Type I Class G for head protection, Z87.1+ for faceshield/eye protection

32HD64

Helmets provide all-in-1 head, eye, face, and respiratory protection. A lightweight, battery-driven positive-pressure PAPR is integrated in the helmet, eliminating waist belts and trailing hoses or leads. Electronic systems management (ESM) features a heads-up display and visual and audible alarm for airflow and filter and battery life. Flow rate adjusts to 7.6 or 8.2 cfm.

Pureweld® Powered Air-Purifying Respirator (PAPR) System

- NIOSH approved
- Meets ANSI Z89.1 Type 1 Class G for head protection, Z87.1+ for faceshield/eye protection

32HD66

All-in-1 welding helmet provides head, eye, face, and respiratory protection. The helmet has an integrated lightweight, battery-driven positive-pressure PAPR, which eliminates waist belts and trailing hoses or leads. A heads-up display and visual and audible alarm for air flow and filter and battery life are provided by the electronic systems management (ESM) feature. Flow rate adjusts to 7.6 or 8.2 cfm. The system can function as a fracking respirator to help protect oil and gas workers against inhaling silica dust. The welding window flips up for easy visibility and conversation through a clear inner visor. Choose fixed or autodarkening filter. Includes neck cape, HE filter, battery pack, and charger.

EZ Air and EZ Air Pro PAPRs

- NIOSH approved
- Meet ANSI Z89.1 Type I Class G for head protection, Z87.1+ for faceshield/eye protection

Complete particulate system for industrial applications offers combined respiratory, eye, and face protection against hazardous airborne contaminants and flying debris. Include downtube with FR cover, blower, HE filter, waist belt, battery, charger, and storage bag. Batteries provide up to 8 hr. use per full charge, 5 hr. full recharge time.

EZ Air—Motorized, lithium-ion battery operated system provides constant supply of fresh, filtered air over user's face. Large helmet design accommodates safety glasses under faceshield. Has airtight headgear assembly and flow tester, and features audible, visual, and vibration alarms. Waist belt is lightweight and adjustable. Rechargeable battery.

EZ Air Pro—Designed with superb balance, no fit testing required. Helmets are interchangeable with supplied air respirators and be converted. Ergonomically and lightweight waist pack has low profile style and holds NiMH battery pack.
