

SAR Respirator Assemblies and Components

SUPPLIED AIR RESPIRATORY (SAR) HEADGEAR

CC20 Respirator Hoods—Hoods deliver continuous airflow and protect face, head, and neck. Provide excellent peripheral vision through 6" x 17" facepiece.

Note: To build a complete Bullard® supplied air system, choose 1 each from the following groups: respirator hoods and breathing tube assemblies for use with a breathing air compressor or free-air ambient pump.

88VX Abrasive Blasting Helmet Respirator Assembly—Respirator has a lightweight inner shell with an adjustable headband and wide-angle facepiece. Assembly includes a helmet, cape, ¼" industrial interchange fittings, breathing tube, airflow control, belt, inner/outer lens, and 5 Mylar® lens covers.

- NIOSH approved
- Facepiece meets ANSI/ISEA Z87.1-2010
- Head protection meets ANSI/ISEA Z89.1-2014

Note: For use with breathing air compressors.

BREATHING TUBE ASSEMBLIES

Control the flow of air into the respirator.

SUPPLIED AIR RESPIRATORY (SAR) COMPONENTS

Climate Control Tube—Control the temperature of air delivered to the respirator.

Air Supply Hoses—For use with breathing air compressors and have ¾" I.D. Starter hose has ¼" female coupler and ¼" male fitting. Air supply hose for use with free-air ambient pumps. Hose has ½" female coupler and ½" male fitting.

41 Series Airline Filter—7-stage filtration system with 6 layers of filtration to remove water, oil, odors, and particulates. Includes 2 outlets with pressure gauge, relief valve, and pressure regulator. Can be used with other compressor safeguards to provide clean air to airline respirators.

CO Monitor—Displays the CO concentration with audible alarm when high CO levels are present. Includes remote alarm connection devices and connection kit for Airline Filter 6AM36 and any compressed breathing air source.

- Operates on 110/220VAC or 12VDC

Grade-D Breathing Air Filtration and CO Monitors

Portable Clean Air Box (CAB) system provides 3-stage filtration and carbon monoxide (CO) monitoring. Filters remove oil, water, particulates, oil vapor, and odors. Independent regulators provide proper airflow to each user. CO monitor features remote-capable, high-intensity 90dB alarm with strobe; internal and external visual display; and 90-sec. auto calibration. Powered by 110VAC or 8 AA batteries. Housed in a rugged polycarbonate Pelican® case that withstands harsh work environments.

Description	Mfr. Model	Item No.
SAR Headgear		
CC20 Respirator Hoods (Suspension Sold Separately)		
Tychem® QC Hood, Basic	20TJN	6AT82
Tychem® QC Hood, Inner Bib Style	20TICN	6AG91
Tychem® QC Hood, Inner Bib Style For Use with Hard Hat	20TICH	3AJ96
CC20 Hood Suspensions		
Headband with Rear Slide Adjustment for Respirator Hoods 6AT92 and 6AG91	20TG	5AC89
Headband with Sure-Lock® Ratchet Adjustment for Respirator Hoods 6AT82 and 6AG91	20RT	6AG89
CC20 Hood Lens Covers		
Mylar® Lens Covers, Pkg. of 25	20LCL	1AAK3
88VX Abrasive Blasting Helmet Respirator Assembly		
With 28" Nylon Cape	88VX3230	3NRD6
88VX Abrasive Blasting Helmet Accessories		
28" Nylon Cape	46VX	5AF35
38" Nylon Cape	13VX	6AV30
Tritan™ Inner Lens, Pkg. of 10	MP771B	6KXV6
Tritan™ Outer Lens, Pkg. of 25	MP771020	6KXV5
Breathing Tube Assemblies		
Constant Airflow For Use with Breathing Air Compressor	V30	2AK34
Adjustable Airflow For Use with Breathing Air Compressor	V40	6AL49
Constant Airflow For Use with Free-Air Ambient Pumps	V35	5AK99
SAR Components		
Climate Control Tube		
Cool Tube For Use with Breathing Air Compressors	AC1000	6AC11
Heat/Cool Tube For Use with Breathing Air Compressor	HC2400	6AX08
Air Supply Hoses For Use with Breathing Air Compressors		
V5 Series, Nylon, Coiled, 50 ft.	V55030	6AW41
V10 Series, Rubber, 50 ft.	469650	6KXV7
Air Supply Hose For Use with Free-Air Ambient Pumps		
V20 Series, Rubber, 50 ft.	V2050ST	6AV02
41 Series Airline Filters and Replacement Cartridge		
Floor Mount Airline Filter	41P2	6AM36
Wall Mount Airline Filter	41P2WM	38NF64
Replacement Filter Cartridge for 41 Series Airline Filters	41AF	2AL06
CO Monitor		
For Use with Any Compressed Air Breathing Air Source	COHP	2MWK9
Grade-D Breathing Air Filtration and CO Monitors		
30 CFM, 125 psi, 2 Person	CAB30IRHA	38NF66
50 CFM, 125 psi, 4 Person	CAB50IRHA	38NF67
100 CFM, 125 psi, 8 person	CAB100IRHA	38NF65

Portable Ambient Air Compressors

Portable Free-Air® pumps can quickly and easily supply breathable air. Transfer ambient air from a clean air location to a supplied air respirator.

3AM92 and 6AH13 feature Carbofine outlet filter. Medium-efficiency inlet filter keeps particulates larger than 25 microns out of the air supply. Monitors, calibrators, and airline filters are not required.

38NF68 includes wheel kit, roll cage, inlet filters, and pressure gauge.
