MICROFLEX®
THE MOST TRUSTED NAME IN GLOVES®

Medical-Grade Disposable Gloves

- Powder-free
- Non-sterile, except J2284 is sterile

Offer excellent tactile sensitivity while protecting workers from biohazards and reducing risk of contamination. Low AQL ratings indicate less likelihood of pinholes or imperfections for increased worker safety in medical settings. D1841 and D1822 feature an aloe-coated moisturizing inner surface to protect hands from drying and chapping.
