Cut-Resistant Knit Gloves with Arc Flash & Flame-Resistant Protection

■ Meet NFPA 70E standards

Showa—Palm-dipped neoprene coating with sponge grip protects against liquids and abrasion. 13-ga. liner is made with Kevlar.

MCR Safety—Palm-dipped neoprene/nitrile coating is resistant to liquids, chemicals, and oils. Protect from medium-level cut hazards with Kevlar synthetic shell.

Ansell—Offer protection along with an ergonomic fit and pliable comfort. Glass fiber, modacrylic, and Kevlar materials retain their flame resistance after washing. Stainless steel filament core. Foam neoprene palm coating offers flexibility and a secure grip.

Cut-Resistant Leather Gloves with Arc Flash & Flame-Resistant Protection

Made of goatskin leather for superior dexterity, abrasion, tear, and water resistance.

Youngstown—gloves are made of 18-oz. leather with 4" cuff for wrist protection. Lined with Kevlar for additional cut protection and exceed ASTM D6413 for flame resistance. Meet ASTM F2302.

MCR Safety—gloves have a Kevlar liner for added cut resistance. Meet NFPA 70E standards. K2816 and K2818 have a Nomex back. K2819 and K2762 are full leather palm and back.

HexArmor—premium leather gloves have Aramid liner and extended cuff for extra protection.

Mechanix Wear—gloves are made from tough DuraHide leather with a high tensile strength liner. Stretch elastic cuff for easy on/off.
