

1-800-GRAINGER (472-4643)

Impertech Sanitation Rainwear

- 0.16mm
- Meet ASTM F1671 Bloodborne Pathogen standard
- Navy color

Constructed of circular knit polyester backing with a stretch polyurethane coating. Microwelded seams help ensure that garments are waterproof. Stretches with wearer for extra comfort.

Jacket—Front zip has a snap storm flap and over-flap front closure with plastic snaps. Attached hood has elastic for protection. Raglan sleeves enable increased arm movement.

Bib Overalls—Have a high waist and adjustable elastic suspenders. Snap adjustment waist and elastic at ankles for protection.

G5389

Bristol Bay Rainwear

- 0.75mm

PVC with cotton twill backing provides protection against chemicals, animal fats, and motor oils. Material is water- and windproof and resistant to the effects of seawater and sunlight. Durable double trimmed seams and generous sizing for working comfort. Machine washable.

Jacket has attached drawstring hood with large visor, neoprene storm cuffs, chrome-plated brass snaps, and double snap system on placket for extra wind and rain protection.

Pants feature an additional 0.35mm layer of PVC-coated oxford nylon for extra wear resistance. Also with adjustable waist panel and heavy-duty elastic suspenders.

Open Road Ripstop Rainwear

- 150 denier

Lightweight gear is waterproof and provides protection against rips, snags, tears, punctures, and abrasion. Seams are double stitched, taped, and heat sealed.

Jackets have a protective collar storm flap, helping to block out wind and water entry. Feature 2 front storage pockets and multiple front and back vents for breathability. Drawstrings on attached hood and wrist cuffs are adjustable.

Bib Pants feature quick-release clip suspenders and have a front fly with hook-and-loop closure along with adjustable boot cuffs.
