

1-800-GRAINGER (472-4643)

Unisex Lab Coats and Frocks

- Non-sterile
- Serged seams

Soft, breathable, and lightweight disposable garments offer comfort and enhanced range of motion. Spunbond-meltblown-spunbond (SMS) fabric. Economical protection from dust, dirt, nonhazardous dry particles and light liquid splash. Lab coats have front pockets; frocks do not have pockets.

Disposable Lab Coats

Economical solution for disposable clothing and for use in less demanding environments. Breathable fabric offers protection against dry particles and nonhazardous water-based aerosols. Coats with knit or elastic cuffs help keep cuffs from snagging objects and can provide more protection from airborne particles. Serged seams. All coats have a collar (except Basic SMS coats) for a more comfortable fit.

Basic SMS—The Spun-Bonded Melt-Blown Synthetic (SMS) fabric is a polypropylene material constructed of 3 durable layers that resists abrasion and wear.

Polypropylene—Durable polypropylene material resists wear and abrasion. H2308 has a hook-and-loop closure for easy donning/doffing.

Tyvek 400—Fabric features no films or laminates to abrade or wear away. Protection is built into the fabric itself, and it provides better protection than microporous film fabrics even after wear and abrasion.
