## Socks & Liners

Socks and boot liners provide a barrier between the foot and the boot or shoe to keep feet warm and prevent sores caused by rubbing. **Slip-resistant socks** are worn without shoes and have an anti-slip surface to help maintain good footing on slippery surfaces. **Thermal socks** are worn in cold weather conditions to provide more insulation than general use socks. **Thermal boot liners** fit inside cold-condition boots and can be replaced when worn out.

## Footwear Surface Cleaners, Protectants & Deodorizers

Footwear surface cleaners and protectants are applied to the outside of shoes and boots to protect against wear and tear and keep footwear clean. Footwear deodorizing sprays and leave-in deodorants remove odors from shoes and boots.
