

K3320

5RPY9

Horizontal and Vertical Lifeline Systems

- Meet OSHA, ANSI, and CSA standards

HORIZONTAL SYSTEMS

TechLine™

- Accommodate 2 users
- Designed for applications where an overhead anchorage is not present. Include waterproof bucket for safe and dry storage.

SkyGrip® Kits with Anchors

Connections at each end attach to vertical anchorage points.

Xenon®

- Accommodate 2 users
- Permanent systems provide automatic pass-through fall protection. Stainless steel components.

VERTICAL SYSTEMS

Vi-Go™ Ladder Climbing System

- Accommodates 4 users
- Permanently installed flexible cable system with automatic pass-through provides fall protection for fixed ladder applications. Does not require a cable guide. Easy 1-handed attachment/detachment. Accommodates 3/8" cable. Fall arrestors sold separately.

GlideLoc®

Rigid rail systems are permanent with minimal maintenance required. Fall arrestors sold separately.
