

Plastic Spill Deck . 45YZ82

Plastic Spill Containment Decks/Platforms

- Support EPA Compliance 40 CFR 264.175
- Support SPCC Compliance, except 45YZ80 to 45YZ83
- Black grate color

Plastic Spill Decks—Suitable for standalone use with small drums and containers. These decks can be connected with other pieces to share spill capacity between units to make a complete EPA-compliant unit for holding 55-gal. drums.

Inline Plastic Spill Decks—Save floor space and make drum and container handling easier. These decks are commonly used where storage against a wall is preferred.

Plastic Spill Decks with Overflow Bladder-

Low-profile saves floor space and makes drum and container handling easier. They are connected to a spilldeck sump that has an overflow bladder that automatically unfurls to provide additional spill containment.

Plastic Spill Deck with **Overflow Bladder** 3VAR2

Plastic Ramps & Bladder for Spill Decks/Platforms

Ramps contain spills and allow for the loading and unloading of large tanks and storage drums. attachment that increases sump capacity to They connect to spill decks/platforms and make loading and unloading drums and containers easier while also helping to minimize injuries.

Flexible plastic replacement bladder is an ensure spill decks/platforms are EPA and SPCC compliant.
