Leak Diverters

Capture overhead leaks caused by water and snow. They divert and redirect leaking fluid to prevent damage to floors, merchandise, or equipment plus help reduce slip hazards.

Ceiling Leak Diverters are tarps to protect people and equipment from leaks. D-rings are used for simple installation.

Drop Ceiling Tile Leak Diverter Kits replace damaged tiles and are used to maintain a professional appearance. They channel liquids away from ceilings with a hose and protect people and equipment.

Material

Color

Mounting Style

Dim.

Umbrella Style Ceiling Leak Diverter Kits

contain the necessary components to capture overhead leaks and drain liquids away with a hose. They hang from a single point near leaks and open up like an umbrella.

Pipe Leak Diverters are tarps to capture leaks or condensation from pipes and protect people and equipment. Have brass grommets that are used to hang them on leaking pipes. Liquids are channeled away to a collection container or a portable storage tank. They can also be used for various maintenance applications.

Components Included

Mfr.

Model

Brand

Above the Ceiling Leak Diverter Kit sits directly above a drop ceiling tile to catch leaks and channel them away and **Below the Ceiling** clips in place to your drop ceiling to control leaks and drips.

Drop Ceiling Tile Kit 30PX48
