Altair Single Gas Detectors

- 95dB audible, visual, and vibrating alarms
- IP67 rating for dust and water ingress

2-yr. disposable unit features 1-button operation, bump test, and 25-alarm memory. Includes lithium battery.

Calibration Check Gas Cylinders and Automated Test Stations

Calibration Gas Cylinders—

Aluminum 500 psig cylinders contain sufficient gas for multiple MSA instrument calibrations. Required regulator sold separately.

Automated Test Stations—Galaxy GX2 stands provide simple, efficient gas detector testing, calibration, and charging. Compatible with detector data management systems.

Altair 2X and Altair 2XP Single Gas Detectors

- 95dB audible, visual, and vibrating alarms
- IP67 rating for dust and water ingress

The superior performance and long service life of XCell sensor technology in a rugged rubberized armor housing offer enhanced wearer safety, compliance, and traceability, as well as drastically reduced total cost of ownership.

Altair 2X—Speedy sensor response and recovery reduce gas consumption for calibration and gas bump tests.

Altair 2XP—XCell Pulse technology and simple flow check deliver a daily stand-alone bump test without specific calibration gas or accessories.

Altair 5X Multi-Gas Detectors

- Audible (95+dB), visual, and vibrating alarms
- MotionAlert 30-sec. "man down" sensor

Rugged, datalogging portable detectors employ XCell technology for faster performance and more than 4 yr. typical sensor life. Large buttons allow easy operation with gloved hands. Each includes calibration cap, tubing, and charger.

Altair 5X—Integral pump for consistent flow. Kits 6RRA1, 6RRA0, 6RP29, 6RP28, and 45KE55 come with 10-ft. sampling line and 1-ft. probe. 44KE54 and 44KE55 measure gases simultaneously and detect VOCs.

- IP65 rating for dust and water ingress
