

## Emergency Combination Drench Shower and Eye/Face Wash Stations

■ Meet ANSI Z358.1-2014

Stations have combined drench shower and eye/face wash or eyewash and include a 10"-dia. showerhead with stay-open ball valve and stainless steel pull rod. Eye and eye/face washes have 1 1/2"-dia. eyewash bowl and feature twin spray outlet heads, stay-open ball valve, and cast-aluminum flag-type handle. Spray heads have internal filter and dust cover. Include ANSI-Compliant identification sign and inspection tag.

**Heat Trace Station**—Prevent freezing down to -40°F. Thermostat activates when internal piping temperature falls below 75°F.

**Barrier-Free Stations**—Shower pull rod and eyewash bowl extend to facilitate use by people with physical disabilities. Meet ANSI 117.1.
