

JUSTRITE **EAGLE**[®]
Type I Safety Cans

Safety cans with leaktight, self-closing spouts provide temporary storage of flammable liquids such as gasoline (red), kerosene (blue), diesel (yellow), and oil (green). Automatic vent feature protects against rupture or explosion, and flame arrestors protect contents from external ignition sources. Galvanized steel models feature an ergonomic, all-steel handle and chemical-resistant, high-gloss powder-coat finish. High-density polyethylene cans are impervious to many liquid chemicals, solvents, and corrosives.

Funnels for Type I Safety Cans								
For Justrite 1 gal. or Larger Galvanized Steel Models, 11 in L x 1/2 in O.D.						Justrite	11202Y	3AG33
For Eagle Galvanized Steel Models, 9 in L x 1 1/4 in O.D.						Eagle	F15FUN	6X853

* Stainless steel hardware.

Type I Safety Cans—Cans have a single opening for both filling and transfer of flammable liquids into containers with wider openings. Justrite and Eagle galvanized steel cans have a trigger-release cap. Justrite galvanized steel cans have a full-fisted grip handle that swings for easy handling, except 6UZN1 features a trigger handle. Justrite polyethylene cans have plated steel or stainless steel fittings and a flame arrestor and content ID zone for identification of fuels being stored.

Type I Safety Can Combo Kits—Include an Eagle Type I Safety Can with matching specifications and Funnel 6X853.

Funnels for Type I Safety Cans—Polyethylene funnels fit Type I cans. 3AG33 features a 2-position hinge that allows user to fill or pour without removing the funnel. 6X853 self-locks and is FM Approved.

JohnDow Industries
Portable Fuel Caddies

These mobile fuel caddies help you transport fuel safely to jobsites.

9FA80 and 8TTW6—Molded-in baffle prevents spills during transport. Spring-loaded nozzle with 2-way rotary hand pump and 10-ft. hose. Calibrated in 2-gal. increments. Polyethylene construction is resistant to chemicals, rust, and dents. Aluminum nonsparking axle and pneumatic tires with nylon bearings and wheel hubs. UN Approved, DOT Approved.

JohnDow Industries—Heavy-duty bidirectional pump provides suction for 5.7 gal./min. @ 72 rpm dispensing (1 gal. per 12 turns). Semipneumatic wheels provide safe, easy movement. Also features 2" filler neck for bulk filling. UL Listed.

Fuel Cans

- Meet EPA standards
- DOT and CARB Compliant

Provide temporary storage of flammable liquids such as gasoline (red), diesel (yellow), and kerosene (blue). Child-resistant fuel cans are self-venting for safe and easy pouring with auto shutoff. Angled and tapered design prevents spills, leaks, and reduces gas emissions. 55GU74–55GU78 have an intuitive press

button spout that gives you precision flow control for an accurate, no-mess pour. 33UZ30 includes 0.9 mm cold-rolled steel walls, an interior rust-proof Rezol lining, internal breather pipe for splash-proof pouring, a three handle configuration for easy carrying, a leakproof bayonet closure, plus a locking pin for the cap.

GarageBOSS Press 'N Pour Spout—For use with all GarageBOSS fuel containers.
