

**SAFETY**  
**Lockout Tags**

**Scan. Order. Done.**  
Details on page A1.

Find Lockout Padlocks on page 1882 to 1883.

**Master Lock** **Accuform**

**Lockout Safety Tags**

**Tags** slide over the shackle of a padlock to alert workers that the equipment is locked out for service.

772R16 and 772R95 are die-cut shaped like a traditional tag, yet connected end-to-end with perforations and rolled into a protective cardboard dispenser box.

**Tag insert holders** have a printed warning not to use equipment that's visible when the insert is missing. Insert your chosen tag, sold separately.
