**Universal Sorbent Pads**

Absorb and clean up both water- and oil-based liquids. These pads lie flat under equipment, on top of workbenches, or in aisles and walkways to clean up spills such as coolants, solvents, oils, paints, grease, and other water-based liquids. The coverstock layer on some pads increases durability and reduces linting. **Ceiling tile sorbent pads** cover ceiling tiles to absorb leaks, and their leakproof backing prevents drips from staining tiles. They fit the most common sizes of ceiling tiles.
