

BlinkerSign Flashing LED Traffic Signs

- Meet MUTCD requirements
- Programmed to flash 24/7

All signs are aluminum and 0.08-in thick. Offer high-visibility LED lights and 3M reflective sheeting. Have a 100,000 hr LED life expectancy.

Pedestrian Crossing signs have an MUTCD code of W11-2; School Crossing signs are S1-1, and Stop signs are coded R1-1.

| Includes | Nominal Sign Size | PEDESTRIAN CROSSING Item No. | SCHOOL CROSSING Item No. | STOP Item No. |

Roll-Up Signs

- Meet MUTCD requirements
- Diamond shape

All roll-up signs have an orange background with black text and quickly alert drivers and pedestrians of hazards. Not retroreflective signs are designed for daytime use only; retroreflective signs provide a highly visible warning and are for day or evening use. Feature standard fiberglass battens with lock pockets. They fit federally approved sign stands. Include storage bag.

Traffic Paddle Signs

- Meet MUTCD requirements

Plastic paddle signs have messages on both sides of the paddle to direct oncoming traffic and warn of a change in road conditions. Road workers and crossing guards rotate the sign to indicate driving instructions for traffic approaching from each direction.

1EKR3, 1EKR4, and 1EKV3 have a high-visibility, orange handle.

| Legend | Sign Size (H x W) | Handle Length | Reflective Grade | Item No. |
|-----------------------------|-------------------|---------------|--------------------------|----------|
