

SAFETY

Pavement Marking Tape, Roadway & Utility Markers, ADA Warnings Pads

Scan. Order. Done.
Details on page A1.

Pavement Marking Tape

- Install with Pressure Sensitive Adhesive (PSA)
- Thickness: 1/16 in
- Max. tape performance temp.: 40°F

The reflective surface on this pavement marking tape makes lanes and road edges more visible in low-light conditions.

Pavement Symbols & Legends Tape

- Install with Pressure Sensitive Adhesive (PSA)
- Thickness: 1/16 in
- Max. tape performance temp.: 40°F
- White color

Tape is printed with a word or symbol to direct traffic and calls attention to changes in traffic patterns. The reflective surface makes the tape visible in all lighting conditions.

Property and Driveway Markers

- Overall height: 48 in

Markers push into the ground on property lines or at the edge of a driveway to indicate the transition for snowplow drivers. Reflective surfaces make the markers stand out at night.

Post Material	Post Color	Reflector Color	Item No.	Pkg. Qty.
Round Reflector				
Fiberglass	White	Amber	2KCW8	10

Reflective Post Only				
Fiberglass	Lime/White	—	35JG42	10
Fiberglass	Orange/White	—	35JG43	10

Utility and Hydrant Markers

- Post diameter: 3/8 in

Markers attach to hydrants and utility posts to make them more visible from a distance and to help locate them under snow drifts.

Mounting Type	Reflective Stripe Color	Post Color	Overall H	Item No.
Hydrant Markers				
Flat Bracket with Spring	Red	Red/White	60 in	49U984

Special Warning System

ADA Warning Pads

ADA-compliant warning pads have raised bumps that are felt through the feet or when using a white cane. Also called truncated domes, they're installed on surfaces at intersections, crosswalks, and building entrances to alert visually impaired individuals of a right of way and to orient them to the direction of traffic flow.
