## Plastic Spill Containment Trays

- 3TAX1, 2RNY5, 31DL51, 31DL52, 31DL83, 53CN49, 53CN51, and 3KXD1 support EPA Compliance 40 CFR 264.175
- ENPAC and Ultratech models support SPCC Compliance

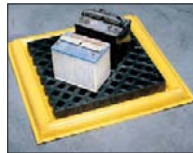

Trays catch leaks and spills from drums and containers. **Spill Trays** can also be used underneath machinery to catch leaks. **Spill Trays With Black Grating** help keep cans, pails, and other containers out of smaller spills. **Pallet Rack Spill Trays** are placed under pallet racks to catch and contain spills or leaks. These trays help keep floors clean and minimize slips and falls. The **Line Pipe Spill Tray for Hose Connections** acts as a drip tray as well as a support for hose or pipe connections. Use the **Tray Connector** to join these trays together.

Note: Product does not include pictured container.

## Collapsible Plastic Spill Containment Trays

- ENPAC and Eagle models support EPA Compliance 40 CFR 264.175
- Support SPCC Compliance
- Support NPDES Compliance, except 45UX06-45UX09

Used to catch leaks and spills under vehicles and equipment. They are compact and can be folded or rolled up for storage.

**Foldable Sidewall Spill Trays** have sidewalls that fold when driven over or stepped on and spring back into place. Ultratech models include a utility tie.

**Compressible Foam Sidewall Spill Trays** have foam sidewalls that provide support yet can be driven over or stepped on. Used as a storage pad for cans and other liquid containers.

**Black Replacement Grates** are used when existing spill-pallet grates are damaged or are no longer usable.

Note: Product does not include pictured batteries.

## Spill Containment Pop-Up Pools

- Support EPA Compliance 40 CFR 264.175, except 32V025
- Support SPCC Compliance
- Support NPDES Compliance
- Yellow color

**Round Pop-Up Pools** are collapsible pools that "pop-up" and expand to a usable size. They are constructed of flexible plastic, and commonly used to contain leaks from vehicles, machinery, and pipes.

**Square Pop-Up Pools with Bladder** have a built-in bladder that unrolls as liquid fills the pool to increase liquid capacity.
