

Self-Rescue Lifelines

- Workers Per System: 1
- Rescue Mode: Lower

Self-rescue emergency lifeline systems provide controlled descent in vertical rescues. They can be modified for sloped and angled applications using cable sleeves and suspension kits.

Personal Flotation Devices (PFDs)

- 15½-lb. buoyancy
- Durable nylon outer shell
- USCG Approved

Life Vests—Feature poly-twill inner construction and 2 adjustable belts to hold jacket securely in place. 794JZ5 and 794JZ6 include a chest strap to keep vest from riding up plus bright colors to increase visibility. Have a leg strap, large armholes, and open-sides. 45MP78 features a leg strap for added safety, a convenient grab strap that allows for quick recovery, and a pop-up pillow for added head support. 45MP77 comes with a leg strap for additional safety. 794JZ2, 45MP75, and 45MP79 feature a chest strap to help keep the vest from riding up. 45MP79 adds reflective material on the front and back for greater visibility in low light conditions.

Life Vests with Dual Chest

Pockets—Feature an outer shell with polyethylene foam and 2 adjustable encircling belts, a heavy-duty zipper, and large arm holes that allow for more freedom of movement. Belts are hidden to help reduce snags. Reflective material on front and back for greater visibility in low light conditions. Include 2 large cargo pockets, dual chest pockets, and 2 D-ring holders for small attachments.

Mesh Shoulder Life Vests—Include an outer shell with polyethylene foam. The mesh shoulder, back, and sides help to keep you cool in warm weather. Feature 2 adjustable encircling belts and a heavy-duty zipper. Belts are hidden to help reduce snags. The reflective material on front and back allows for greater visibility in low light conditions.
