

Flotation Jackets/ Coats and Overalls

■ Foam flotation material

Jackets/Coats—Help to provide warmth and waterproof protection from rain and spray, while also offering flotation and insulation during water immersion. USCG Type III jackets are suitable for general boating or specialized activity that is marked on the device (such as water skiing, canoeing, kayaking, hunting etc.). They are best for calm, inland waters and other applications where there is a good chance for fast rescue. All models (except E7913) feature reflective tape for enhanced visibility.

Overalls—Feature fully seam-sealed nylon construction to help protect you from rain and spray, but are also breathable to eliminate the clammy feeling of traditional flotation pants. Adjustable suspenders help to provide a custom fit, while zippered legs help to facilitate easy donning, even over boots. Wear with flotation jackets (sold separately above) to create a fully integrated flotation suit.

Immersion Survival and Rescue Suits

Keep people warm in cold water or extreme weather conditions. Suits also help maintain buoyancy when submerged in water.

Anti-Exposure Work Suits—Relaxed-fit garment provides hypothermia and flotation protection. Have inflatable head support pillow and neoprene wrist closures. Ergonomic insulated hood folds into collar. Offers chest and front cargo pockets plus SOLAS reflective tape for improved visibility. Tug-Tite at thighs and ankles cinch easily to improve fit and minimize water flushing to delay onset of hypothermia.

- USCG Approved Type V

► CHOOSE: Size	Color	Closure Type	Pockets	Mfr. Model	Item No.
Anti-Exposure Work Suit					
S, M, L, XL, 2XL, 3XL	Orange	Hook and Loop Wrist and Ankle, Zipper Front	4	MS2175	E7912
Water Rescue Dry Suit					
M, L, XL, 2XL	Fluorescent Yellow/Green/Black	Waterproof Zipper	3	MSD576	H3997

Water Rescue Dry Suits—Have a removable suspender system with 2-point attachment to help improve mobility and fit, while Rapid Repair Technology lets you self-replace neck and wrist seals and repair small leaks in less than an hour. Suit material is waterproof and breathable GORE-TEX fabric with Kevlar patches. Integrated dry socks keep feet warm and dry for hours. Closed comfort system adjustable neck seal. Offer CORDURA wrist and ankle overcuffs with Velcro closures for adjustability. Have SOLAS reflective tape on the arms for increased visibility.

Water Rescue Equipment

Rescue Stick Baton—Provides rapid flotation assistance to a person at risk of drowning. Yellow baton inflates in seconds to a large horseshoe shape once contact is made with water. Includes storage bag.

Survival Ring Buoy—Ideal for ship-board rescue operations, this heavy-duty MUSTANG SURVIVAL ring buoy is molded from high-impact linear, low-density polyethylene for long life. Model has SOLAS reflective tape for greater visibility in low light conditions and polypropylene rope with a UV stabilizer. The buoy's encircling rope can be replaced if needed.

Ring Buoy Bag—High-visibility orange bag includes 90-ft. rope that can be used to extend reach of Ring Buoy 5UYA7.

Throw Bag—Attaches to the floating rope inside and has 1 in W reflective tape for nighttime visibility. Features a mesh top and quick-release carrying strap. Includes a light stick holder and a 75-ft rope.

Water Rescue Kit—Packed in a heavy-duty, watertight storage case w/pressure relief valve. Kit includes 5UYA8 inflatable rescue baton, inflatable personal flotation device (PFD), and a throw bag with 50 ft of floating rope.

Zip Tech Zipper Lubricant—Lubricates and protects watertight and airtight zippers on dry suits, survival suits, and more. Contains no silicon or paraffin.

Inflatable PFD Belt Extender—Allows wearers with larger size requirements to use most Mustang inflatable PFDs and will add 12 in to the waist belt. This belt extender fits PFDs with 1.5 in buckles.

Note: In the United States, wearing the belt extender voids the U.S. Coast Guard approval unless the wearer has a chest size over 130cm or 52 in.
