Tactical Boots

Style E02276—Dirt-, oil-, and water-resistant leather has a Scotchgard protector incorporated into the tanning process to improve durability without changing the breathability or texture of the leather. Nonmetallic safety toe protects you from punctures and compression injuries. YKK nylon side zipper allows easy on/off. Slip-resistant rubber outsole, athletic cement construction, and cushioned removable insert provide boots with the stability, flexibility, and comfort needed for the most demanding situations.

Style RB8674—These security-friendly boots provide stealth and all-day comfort in demanding situations. Their removable polyurethane cushion inserts have a shock-eliminator heel cushion. Each boot is made from 100% nonmetallic construction, and their dual-density outsole features a cushion midsole.

Style RB8694—This field-proven footwear provides comfort and athletic responsiveness in critical situations. A shock-eliminating heel cushion adds extra comfort to the removable PU cushion insert. Its dual-density mountain trail rubber bottom has a specialized military tread design that resists slipping in adverse conditions. Each shoe is nonmetallic and security-friendly. The shoe's XTR material will not conduct electricity, cold, or heat. Its toe cap will resist impact and compression, and is extra-wide for comfort.

Style 804-6369—Puncture- and cut-resistant boots feature strengthened leather pull straps and high-visibility piping. Flame- and cut-resistant leather uppers have reinforced heels and toes. This waterproof boot helps to protect you from bloodborne pathogens. Steel triple ladder shanks provide support and stability. Insulated.

Style 834-7991—Lightweight and designed for comfort and safety, their high-performance construction features tumbled oiled full-grain leather upper and cushion-flex removable polyurethane footbed. The spacer mesh lining keeps feet dry and ventilated and is resistant to bloodborne pathogens. The midsole has a gel heel insert for comfort. YKK zipper with hook-and-loop closure. Waterproof.

Style E03140—DuraShocks construction features compression pads in the heel and forefoot to reduce shock to the feet and legs. Stitch-out welt construction on slip-resistant soles provides flexibility and allows boots to be resoled to extend overall boot life. Full-grain leather upper with 1680 denier nylon. Includes a YKK nylon side zipper to quickly get in and out of footwear in emergency situations and a breathable lining to keep feet cool.

Style 834-6219—Full-grain leather/400g air mesh upper with slip-resistant outsole for multisurface traction. Shock-absorbing removable polyurethane insole with air flow vents. Cement construction. GEN-flex2 waterproof, tactical trooper boots have a slip-resistant tread design for sure footing in urban, suburban, and rural settings. Insulated.

Style 12404—Light and comfortable, yet maintains its reputation for toughness and durability. A new air flow tongue and full-length dual durometer Ortholite footbed work to keep your feet cool, dry and comfortable all day, every day. The Achilles heel flex zone, gives a critical part of your foot more range of motion without compromising support. The full-grain leather toe, 840D nylon upper and Shock Mitigation System provide rugged protection.
