

1-800-GRAINGER (472-4643)

Oil & Grease-Resistant Antifatigue Mats

- Beveled edge
- Raised pattern surface
- Anti-Slip backing
- Black color

Nonlaminated foam construction makes these antifatigue mats more resistant to oil and grease than other materials. They are often used in food service.

Welding Safe Antifatigue Mats

- Beveled edge
- Raised pattern surface
- Anti-Slip backing
- Thermally insulating

Antifatigue mats safe for use in welding applications are made of laminated materials that resist damage caused by contact with slag and sparks.

Antimicrobial Antifatigue Mats

- Anti-Slip backing
- These mats inhibit the growth of mildew, mold, and bacteria that can cause odors and spread germs. They are often used in healthcare and food service settings.

Autoclavable Antifatigue Mat

- Beveled edge
- Bubble Raised pattern surface
- Anti-Slip backing
- Gray color

This mat withstands exposure to hospital-grade cleaning chemicals and sterilization in an autoclave. It is made of materials that incorporate antimicrobial substances to prevent bacterial growth and provide some resistance to fungi and viruses. Used in operating rooms, labs, and other locations that require sterile equipment.
