

Standard Drainage Mats

Mats reduce fatigue and joint pain. Holes in mats allow water and other liquid hazards to pass through the top of the mat, reducing the likelihood of injury from slipping. They are suitable for use in wet areas that aren't exposed to oil, grease, heat, and chemicals.

Antimicrobial Drainage Mats

These mats inhibit the growth of mildew, mold, and bacteria that can cause odors and spread germs. They are often used in healthcare and food service settings.

Food Industry Drainage Mat

■ Raised rings surface

Mat meets NSF/ANSI standards or is USDA certified for use in food-processing areas, such as kitchens and food production lines. Resists oil, grease, and fungal and bacterial growth.
