

**Sani-Trax Mats**

Entrance mats clean and sanitize footwear at entrances to sensitive areas such as food processing plants or laboratories. Thick rubber borders allow the mats to hold sanitizing or disinfecting solution and immerse the soles of shoes as foot traffic passes. Flexible fingers bend to immerse soles, while also providing automatic scrubbing action to dislodge contaminants from footwear. Mats resist most chemicals and variations in temperature. Suction cups on the underside of the mats keep them in place.

**Stair Tread Covers and Nosings**

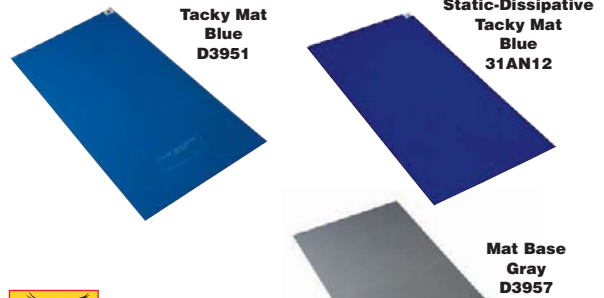

For indoor or outdoor use.

**Stair Tread Covers**—Help provide traction and feature tapered back and beveled edges for additional safety. Predrilled holes offer easy installation on most step surfaces.  
 ■ Meet ASTM and ADA Standards, except 20X803 to 20X805

**Stair Nosings**—Black, extruded aluminum nosings are suitable for heavy foot traffic. Silver, cast-aluminum nosings are suitable for extreme foot traffic.

**Disposable Tacky Mats and Mat Bases**

Remove dust, dirt, and bacteria from shoes, casters, and wheels. Adhesive backing prevents shifting and allows mats to be removed without leaving residue. Each mat contains 30 polyethylene film sheets that are numbered to help identify remaining quantity. Pkg. of 4. Can be used with optional bases or directly on smooth, clean floors.

**Stair Nosings, Rung Covers, and Decks**

Maintenance-free, easy-to-install products are engineered for industrial environments, offering maximum antislip properties and long service life. They feature steel construction with silicon carbide aggregate. Safety yellow color for visibility.

**Stair Nosings**—Grit-coated nosings reprofile the leading edge of stairs, increase the shoe contact area, and guard against slip hazards from weather or fluid spills.

**Ladder Rung Covers**—Epoxy-finish, grit-coated covers help reduce slipping risk by increasing friction and providing a larger surface for foot contact.

**Metal Decks**—Grit-coated deck plates provide traction and slip protection on metal grates or smooth concrete floors.
