

Brass Lock Body Padlocks

- Include 2 keys
- Weather-resistant
- Pin tumbler key locking mechanism
- Rectangular lock body

Brass body padlocks resist corrosion for use indoors and outdoors. Solid body locks with no finish are more secure than those with laminated bodies because they don't have exposed rivets that can be tampered with. Chrome-plated padlocks provide additional protection from harsh environments.

Shackle **Chrome-Plated Lock Body**

Standard Shackle Laminated **Lock Body** 3HWF6

Long Shackle with Tag Zinc-Plated **Lock Body** 4EZP1

Solid (No Finish) **Lock Body** 14J892

Aluminum Lock Body Padlocks

- Include 2 keys
- Weather-resistant
- Double-lever locking mechanism, except 38W786 is ball bearing
- Pin tumbler key locking mechanism
- Rectangular lock body, except 6WNW7 is square

Padlocks resist corrosion and can be used both indoors and outdoors. Chrome-plated padlocks further protect against harsh environments. All padlocks have chrome-plated shackles.
