

# SECURITY

## Cabinet & Drawer Dead Bolt Locks, Key Clips, Rings & Blanks

Scan. Order. Done.  
Details on page A1.

## Cabinet and Drawer Dead Bolt Locks

These locks secure cabinets and drawers to prevent theft and unauthorized use of the contents. The key can be removed in both the unlocked and locked positions. **Counterclockwise** models have 2 mounting holes and include 2 keys. **Clockwise** locks offer 3 mounting holes and include hardware.

**Master Keyed** dead bolt locks use master key code D8799 (Grainger part 4TYH5).

## Key Ring Clips and Chains

Threaded closure opens and closes with a connector nut. Twist Lock opens into a "figure-8" shape to open and close the ring; a crimper tool closes ring permanently. Socket Lock uses a ball-knob and socket closure to lock ring. Chain on spools can be cut to any length, and couplings connect the chain.

Brass Finish

## Key Blanks

Blanks can be used for making replacement keys. All are nickel-plated finish, unless indicated (BR) brass in table.

For replacement keys: Match the Iico Model Number in the chart to the one on your existing key.
