

Circuit Breaker Lockouts

■ Padlocks and lockout tags not included

Prevent accidental engagement of electrical circuits during maintenance.

Single-Pole Breaker Lockouts—Used to lock out circuit breakers with a standard toggle switch. Snap-on models work on breakers with holes in the side of the switch. Bar clamp or clamp-on models work on switches with or without holes. Use cleats with clamp-on lockout to assure positive restraint for breakers with long sliding switch throws.

Multipole Breaker Lockouts—For use on common trip circuit breakers that have two or more switches joined by a tie bar. 1D671 uses thumbwheel for secure fit on extra-wide range of breaker sizes. 3WNZ1 kit includes 1 Lockout Pouch, 1 Multipole Circuit Breaker, 1 No-Hole Circuit Breaker, 277V, 1 No-Hole Circuit Breaker, 480/600V, 1 Single-Pole Circuit Breaker, and 2 Lockout Tags.

Oversized Breaker Lockouts—Fit breaker switches up to 2¼" wide and 7⁄8" thick.

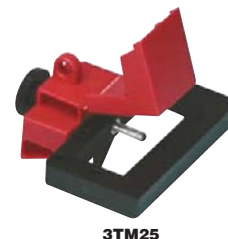

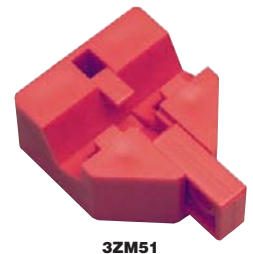

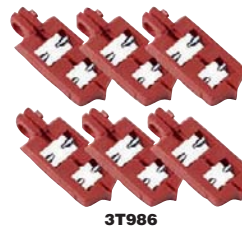

3-Phase Breaker Lockout—Works on single-, double-, and triple-pole circuit breakers. Fits over switch; no holes required. Tighten with screwdriver (not included) and secure with padlock.

DIN-Style Miniature Breaker Lockouts—Breakers are designed to mount to DIN rails. 3 styles; pin-in, pin-out, and tie bar. All pin-in and pin-out styles are used with single or multipole breakers. Pin-out style comes in standard and wide size. 2VU37 is used with multipole breakers that have a tie bar.

Circuit Breaker Lockouts—Properly lock all types of circuit breaker locations. Use 2XU96 for breakers that have a hole in the switch tongue. 2XU97 is for breakers that do not have a hole in the switch tongue. 2CJL3 Flexible Cable Shackle includes steel padlock with 5" steel cable. Numerous key changes minimize key duplication.

Blocking Bar Lockout—Installs to electrical panel in minutes. Use red arm to lock in Off position, or green bar to lock in On position. Includes two 4" L mounting rails, one 7½" L red blocking bar, one 7¾" L green blocking bar, and 3 alcohol wipes.

Lockout Type	Circuit Breaker Voltage	Max. Shackle Dia.	Brand	Item No.	Pkg. Qty.
Single-Pole Breaker Lockouts					
Snap-On for Breakers ⅝ in W x ⅜ in L	120	⅝ in	Brady	3TM51	1
Snap-On for Breakers with Hole	120	⅝ in	Brady	3T986	6
Clamp-On Lockout with Screw	120/240	⅝ in	Condon	48KV26	1
Bar Clamp Lockout	120/240	⅝ in	Condon	48KV12	1
Clamp-On for Toggles up to ½ in W	120/277	⅝ in	Brady	5TB12	1
Clamp-On for Single-Pole	120/277	⅝ in	Brady	3ZM49	1
Clamp-On for Breakers ⅝ in W x ⅜ in L	120/277	⅝ in	Brady	6T783	1
Clamp-On for Tall Breaker Toggles	120/277	⅝ in	Master Lock	1TDB1	1
Clamp-On for Standard Tie Bars	120/277	⅝ in	Master Lock	1TDB2	1
Clamp-On Set, Includes 1 each of 1TDB1 and 1TDB2	120/277	⅝ in	Master Lock	2CJ2	1
Clamp-On for Single and Multi-Pole Breakers	120/277	⅝ in	Brady	2AD54	6
Clamp-On Breaker Lockout with Cleat	120/277	⅝ in	Brady	15Y513	1
Clamp-On for Breakers ⅝ in W x ⅜ in L	480/600	⅝ in	Brady	6T784	1
Clamp-On for Single and Multi-Pole Breakers	480/600	⅝ in	Brady	1A201	6
