Magnetic Exit Door Alarms

Help deter unauthorized use of emergency doors by sounding an alarm when door is opened. Alarm surface mounts on the interior side of the door, and magnetic contacts mount on the door frame. Alarms are reversible for right- and left-hand doors. For indoor use only; mounting hardware included. Key-controlled alarms require a mortise cylinder lock (sold separately).

Standard—Has a low battery warning. Includes a 9V battery.

Slimline—Narrow design takes up less space. 6JD82 mounts on inside of door and has a programmable 6-digit keypad to arm and disarm the alarm; 6JD81 mounts on the outside. All include 9V battery.

Alarmed Exit Devices

- 95dB alarm
- Include mounting hardware and battery.

Applying pressure to the push bar retracts the latch from the strike plate and sounds alarm until reset with included key. Aluminum housings. Paddle- and bar-activated deadlatches, a low-battery indicator, and a deadlocking latch that resists tampering. Deadbolt extends 1" into strike plate.

Description	Finish	Item No.
Deadlatch, 32" Bar	Aluminum	1U124
Deadlatch, 18" Paddle	Aluminum	1U122
Deadlatch, 18" Paddle, Weatherproof	Brushed Chrome	1YND4
Rim Cylinder, Keyed Alike	—	1U005
Rim Cylinder, Keyed Different	—	1U107
Delayed Egress Panic Alarm Device	Satin Aluminum	5MRX1

Aluminum Door Hardware

Deadlatches—A reverse key turn while the bolt is held retracts the latchbolt, allowing 2-way traffic. When latchbolt is extended, exit-only traffic is allowed. Compatible with any standard 1 1/2" mortise cylinder where an MS cam is installed. An auxiliary bolt helps prevent shimming.

Deadlatch Handles and Paddles—Include an activator camdisc that mounts on the handle escutcheon and fits into the cylinder hole of the latch.
