

Find more Safety Sign Compliance and Material Type information on page 1882.

Traffic Control Signs

Communicate traffic rules and warnings and make drivers aware of crosswalks, railroads, road conditions and road construction zones. These aluminum signs are commonly posted near public and private roadways, parking lots, and railroads. HIP sheeting provides higher reflectivity than D or EG sheeting.

Available Reflective Sheeting	
Diamond Grade	(D)
Engineering Grade	(EG)
High Intensity Prismatic	(HIP)

W11-2
D9719
D, HIP (24 in x 24 in, 30 in x 30 in)

H1915

D, HIP (24 in x 18 in)

Parking Signs

These aluminum signs communicate parking rules and regulations and help organize and control traffic flow. They are commonly mounted on sign posts, stands, or walls within parking lots. HIP sheeting provides higher reflectivity than D or EG sheeting.

Available Reflective Sheeting
