

Two Way Business Radios

All radios include battery, belt clip, single-unit drop-in charging tray, and transformer. For additional accessories, see page 1952.

BUSINESS, RDX SERIES

- FCC License required
- Narrowband compliant
- Durable analog radios provide clear audio quality and expanded frequency capability
- Operate on 89 UHF and 27 VHF business frequencies; up to 213 codes to ensure clear signal

- Allow for programmable frequencies to be added later; high-power models can be programmed to function with repeaters
- Programming Cable 29WJ59 required to program radio on licensed frequencies and to access programmable features, sold separately on page 1946, 1952

BUSINESS, RM SERIES

- FCC License required
- 12.5 kHz narrowband
- Designate 16 prerecorded channels
- Up to 20 floors communication coverage

BUSINESS, RMM SERIES

- Operate on license-free VHF MURS frequencies
- Programming Cable 29WJ59 required to access programmable features, sold separately on page 1952

LIGHT-DUTY, CLS SERIES

- FCC License required
- Narrowband compliant
- Operate on 56 UHF business frequencies; up to 121 codes to ensure clear signal
- Lightweight and compact
