

FERNO®
When It's Critical™

Evacuation Stair Rescue Chairs and Devices

Model 40 Chairs—Two 5" stationary rear wheels, rear lifting handles, and 2-position front handles ease movement through cramped quarters. Features two 5-ft. quick-release restraints and locking safety latch.

EZ-Glide Chairs—Track system carries patient down stairs and through tight spaces. Allows one person to evacuate patients up to 200 lb. and two people to evacuate patients up to 500 lb. Features include an ergonomic, 5-position extending lift bar; handles; 3 web straps; foot-rest; and folding design. Model with PowerTraxx allows lifting patients up stairways without risking back injury.

Head Immobilizer—Immobilize heads of patients with suspected spinal injury. Lightweight, easy-to-clean unit has 2 plastic-coated, closed-cell foam supports with 2 straps and large ear holes that allow medical monitoring. Universal attachment base secures to any backboard.

Extrication Device—Helps minimize the risk of further injury during extrication from confined spaces. Wraparound design provides horizontal flexibility and vertical rigidity. Includes a wraparound vest, neck roll, color-coded body straps, 2 head straps, and carrying case. Made of vinyl-coated nylon with built-in handles.

EVAC+CHAIR

Evacuation Board and Sheet

Designed to help one or more people slide a mobility-impaired individual to safety in an emergency.

Evacuation Board—Hook-and-loop straps secure the person in place and a pillow reduces head movement for safe transport. To protect against hitting steps, door frames, and corners, the board has fold-up sides.

Evacuation Sheet—Adjustable wraparound straps cocoon the patient to the mattress. Long straps at head and foot help control transfer to the floor and out, even down stairs. Sheet installs between the mattress and bed, ready for immediate use.

MEGA MOVER®
portable transport unit

Portable Transport Units

Transport Units—Compact and cost-effective units transport, transfer, or rescue patients from areas not accessible to stretchers. Feature nonwoven, latex-free construction with 14 attached handles for ergonomic lifting. 45EU90 and 45EU91 have PowerGrip handles for added comfort.

Transport Chairs—Constructed of strong, nonwoven material with 8 reinforced-nylon, yellow handles for ergonomic lifting. Rolls up to the size of a water bottle for easy storage. 45EU92 has PowerGrip handles for added comfort.

Barrier Sheet—Barrier sheet can be used as a durable transfer device or as a blanket for warmth. Nonwoven/poly construction acts as a fluid barrier to prevent any cross contamination.
