

Standard Shackle Laminated Steel Lock Body with Cover 1JAJ8

Standard Shackle Solid (No Finish) Lock Body 430J31

Coreless Keyed Padlocks

- Rekeyable
- Weather-resistant
- Pin tumbler key locking mechanism
- Rectangular lock body

Padlocks contain interchangeable core cylinders (sold separately) that allow the padlocks to be rekeyed or keyed into an existing system without taking the locks apart. 425N95 has a breakaway shackle that can be broken with a hammer blow for applications where the lock may need to be removed rapidly.

Standard Boron Shackle Laminated Lock Body 6T403

Standard Hardened Steel Shackle Solid (No Finish) Lock Body 1XRU7

Covered Steel Lock Body Padlocks

- Include 2 keys
- Pin tumbler key locking mechanism
- Rectangular lock body

Covered padlocks withstand harsh weather and corrosive environments. Models with BumpStop technology prevent rotation of the cylinder so the padlock remains locked. Partially hidden shackle padlocks resist cutting. Locks with rekeyable cylinders provide tens of thousands of key changes.

Weather Tough Laminated Steel—Padlocks have chrome rust-proofing for strength and longer life.
Pro Series—Shrouded padlocks offer superior resistance to cutting by minimizing shackle exposure.

Breakaway Shackle Padlocks

- Include 2 keys
- General security level

Laminated steel padlocks feature a warded key locking tumbler and a special breakaway shackle for emergency access to sprinkler shutoff valves and fire hose. Shackle is broken with a hammer blow. Padlocks are keyed alike and feature a nickel-finish shackle.

Single-Post Shackle Padlocks

- Include 2 keys
- General security level
- Rectangular lock body

Padlocks have a single-post style shackle, so they fit where standard loop shackles won't. Removable hardened

steel shackles are inaccessible to cutters once engaged. Padlocks feature dual-locking levers, a hardened steel bottom plate for extra drill resistance, rubber bumpers, and a 4-pin lock tumbler.
