Retractable-Belt Crowd Control Barriers

■ 40 in H posts

Guide traffic, mark off hazards and restrict access.

Retractable-Belt are designed to withstand heavy traffic areas. Universal belt-end works with most stanchions and locks to help prevent accidental release. Feature a strong and slow EZ Back brake for added safety and have a built-in rubber floor protectors, ensuring scuff protection.

Retractable-Belt PRIME are economically priced and accommodate medium traffic or less abusive environments. Posts feature EVERstraight Technology: a self-straightening base connection that helps keep the post upright and in place.
