Hybrid Video Recorders

- Video compression format: H265/H264

These recorders allow you to have both analog and IP systems running at the same time on the same system. This technology is a great addition to an already established security system for your business or facility. This enables you to upgrade your surveillance system to IP equipment at your own pace, according to your budget. Include central management software disk, mouse, power cord, power supply, remote, remote control, and SATA cables. Resolution: Analog Channel: 5MP Lite@10 fps, 4MP Lite/1080P@ 15 fps (NTSC) 1080P Lite/720P/WD1/D1@/30 fps (NTSC). IP Channel: 30 fps (NTSC)

Video Surveillance Monitors

Universal color monitors for use with security cameras, network video cameras, DVRs, quad splitters, multiplexers, and other video devices.

PORTABLE LCD TEST MONITOR

Headphone jack allows audio testing. Video/audio connector: RCA with BNC plug adapter. Includes 12VDC power supply, 4-hr. rechargeable battery, charger, video cable, and carrying case.

LED MONITORS WITH VGA

Feature full high-definition LED panels with multiple inputs including VGA, AV, USB, and HDMI. Designed for 24/7 applications with standard vesa pattern on the back for wall mounting. Includes built-in speakers.

LED MONITORS WITH VGA AND BNC OUTPUT

- Display up to 16.7 million colors
- VGA (D-Sub 15 pins) and BNC video output

Flat-panel screen features backlit LCD and built-in stereo speakers. Required for high-resolution surveillance. Includes regulated 12VDC, 5A power supply. VESA compatible.
