Crowd Control Barriers

Use to create an effective crowd control/warning barrier. For indoor or outdoor use.

Plastic Chain—Use with stanchions and ground posts for crowd and traffic control. Lightweight chain is strong and durable; UV protectant added to help resist fading.

Medium- and Heavy-Duty Stanchions—Highly visible stanchions provide guidance and safety when controlling crowds and directing traffic.

Ground Posts—Maintenance-free posts are used to outline paths and driveways.

Sign Adapters—Use to attach a sign to a stanchion. Replace ball top with sign adapter. Accommodate signs up to 1/16" thick.

S-Hooks—Use to attach a plastic chain in a variety of applications. Each size S-hook corresponds to the matching chain.

Magnet Ring/Carabiner—Easy Lockout Tagout (LOTO) option for use in manufacturing facilities, distribution centers, and retail stores.
