Safety Barriers

Lightweight, polyethylene barriers are excellent for use in all public spaces. Each comes with 6 interchangeable messages: "Caution—Out Of Service," "Caution—Wet Floor," "Temporarily Closed," "Danger—Keep Out," "Cleaning In Progress," and "Caution—Work Area." Bright yellow color. Stack flat for easy storage. Individual units can be linked together; units with stand can also stand alone.

Metal Detectors

Handheld

10A457, 1ZRZ7, and 1ZRZ8 provide the ultimate sensitive response to metal objects. They are self-calibrating, easy and convenient to use, and offer increased durability. 20KZ01 provides precision locating for all types of metal to safeguard security areas. No tuning required. Features an optimum sensitivity level and allows you to choose between an audio alarm or silent vibrating. Can be used alone or in conjunction with 20KZ03. 20KZ02 is a high-performance detector for all types of metal. Choose between 3 frequencies for less chance of interference. Designed with "momentary low" switch to eliminate interference from steel rebar built into many concrete floors.

Walk-Through

5ENY7, 53DU72, and 53DU73 detect 33 pinpoint zones to precisely identify multiple target locations across the entire body. Feature dual detection transmitters and receivers in each panel, over 20 standard program settings for optimal performance, and superior versatility with selectable settings designed for airports, courthouses, prisons, schools, facilities, special events, mass transit, loss prevention and many other applications. 20KZ03 transports to virtually any location and can be up and running within 5 min. Multizone detector features 100 sensitivity settings and requires only 1 operator. 40-hr. battery life. AC (110V or 220V) or DC power.

Ground Search

1ZTA2 features graphic target ID cursor, Accept/Reject notch for specific target detection and to ignore unwanted items. Designed with electronic pinpoint for easy target recovery. Also features continuous target depth indicator. 8 level sensitivity adjustment. 5ENY6 features increased durability and sensitivity, 360° side scan detection area, a wide range of operating temperatures, and includes woven belt holster. Also features proportional audible alarms and pinpoints targets faster.

PLASTICADE

Portable ADA Barricade System

Modular system features tamper-resistant, 2-pc. linking sections: a rugged polyethylene barricade top and a self-weighted base that fit together securely. A straight barrier wall on the pedestrian side reduces tripping hazards. Each assembled section is 40"H x 43"L x 15¼"W and remains stable in windy conditions. Base has an integrated carrying handle. System can be shaped to any layout. ADA Compliant.
