Driver Bit

Phillips Square-Drive Wood Screws and Bits

■ Bit included with each box of screws

Case-hardened, flat-head screws have 35% more steel under the head to prevent snapping. Paintable, stainable Durafast coating will not rust or streak and is corrosion-resistant.

**Flat Head,
Square Drive**

Deck Screws

Coarse thread and Type 17 point make it easier to assemble wood and vinyl decks, or any outdoor wood-to-wood project. Countersunk flat head produces a flat surface area. Number 2 drive size provides superior driving with 4 points of contact.

82° Flat Head

Drywall Screws

Attach drywall or wallboard to metal or wood studs and joists without the need for predrilling. Thread-cutting screws feature a thin shank, deep threads, and a very sharp point. With a #2 Phillips driver, the countersunk bugle head won't tear the surface paper of the drywall. Made of steel with black phosphate finish.
