Battery Powered Caulk Guns

- Variable-speed triggers
- 360° rotating collar provides excellent bead control

Carriage design allows the user to quickly and easily change between 10-oz., Quart, and Sausage-style material containers.

12V—Compact, light-weight guns provide up to 400 lb. of push force for dispensing everyday construction sealants and adhesives. Include auto-reversing anti-drip, seal puncture tool, and durable hang hook.

18V—All-metal gears provide 950 (Milwaukee) or 1100 (Makita) lb. of force for steady dispensing of the highest viscosity materials. Anti-drip mechanism instantly stops leaks. Makita models have an LED light.
