

1-800-GRAINGER (472-4643)

Abrasive Rolls

Rolls can be torn to exact lengths as needed, eliminating waste.

Cloth Rolls—For polishing lathe turnings, rolls, and cylinders; light deburring; blending machine tool marks; removing rust and scale; fine sanding and polishing.

Paper Rolls—For preparing primed and painted surfaces; sanding plastic and fiberglass; and bare wood sanding.

Abrasive Cloth Roll Kit

Kit comes with 24-ft. L premium aluminum oxide abrasive sheets in 5 different grits; cut or tear off to the length that you need to help eliminate waste. The strong bonding system allows the sheets to be torn and rolled without shelling. An excellent choice for all your utility sanding and general maintenance work, including blending, finishing, and cleaning applications.

Abrasive Material	W	Grit	Item No.
Aluminum Oxide	1 in	120, 180, 240, 60, 80	4YJY2

Open-Mesh Abrasive Rolls and Sheets

In applications where life and load resistance are the most important factors, the open mesh screen on these silicon carbide sheets resists loading for fast, easy, and efficient sanding. Use for sanding plastic piping prior to gluing; preparing copper pipe and fittings prior to soldering; and sanding softer materials where loading is a problem, such as plaster, wood, drywall, brass, etc.
