1RDJ5**

Diamond Hand Pads

Color-coded hand pads combine the durability and aggressiveness of diamond on a high-strength, flexible backing. Single-sided; conform to shapes and contours. Well-suited for quick finishing of ceramic tile to get a smooth edge before grouting. Can be used on many other surfaces to smooth edge chips, reface edges, or polish dies and molds. 1RDJ5 is an assortment that contains 1 of each type of pad.

Abrasive Sponges

Durable coated foam lasts up to 5 times longer than sandpaper and resists tearing. Can be used wet or dry, and can be washed and reused multiple times.

General Purpose—Small, flexible sponges are coated on 2 sides and can be used on most materials. Silicon carbide abrasive. Coated on 2 sides.

Sealer Sanding—Designed for hand sanding primers and sealers between coats on furniture and cabinets. Premium silicon carbide abrasive. Coated on 2 sides.

Profile—Designed for flat surfaces and corners on metal, wood, plastic, or paint. Aluminum oxide abrasive. Coated on 3 sides.

Small Area—The ultra sharp aluminum oxide grain offers faster cut and longer life for small area paint and drywall repair. Coated on 2 sides.

Dual-Angle and Angled—Extra-firm sponges are coated with aluminum oxide abrasive on 4 sides for sanding inside corners and crevices of drywall compound.

Contour—Thin, flexible sponges are designed for small diameter objects with contours such as ceramics, spindles, turnings, and railings. Aluminum oxide abrasive. Coated on 1 side.

Soft Touch—Superior flexibility for hand sanding or finishing flat, curved, contoured, and hard-to-reach areas. Aluminum oxide abrasive. Coated on 1 side.

Corner Drywall—2 sides have aluminum oxide abrasive, providing dual sanding action for near-perfect inside corners on drywall. Extra-firm sponges are designed for sanding drywall corners, but can also be used on a variety of other materials.

Softback—Coated on one side with an aluminum oxide grit that is excellent for automotive applications, this flexible sponge is effective for hard-to-reach areas like headlight openings and door jambs. The soft foam backing allows comfortable hand sanding.

Foam Sanding Pads

- A275 aluminum oxide grain with No-Fil coating
- 4 1/2" W x 82" L roll
- 178 (5 1/2" L) sheets per roll

Water-resistant sheets are excellent for fine sanding water-based primers, topcoats, wood, metal and composite, especially on rounded edges, contours, and curves. Can be used moist to provide a uniform finish that minimizes scratching.
